SELECTION PROCEDURE

4.1 COMPETITIVE ENTRANCE TEST

The Entrance Examination shall be conducted through a Computer Based Test (CBT).

The Entrance Test shall be held on **07.06.2020 (Sunday) morning shift** and duration shall be 1½ hours (one and half hours/90 minutes) for MD (Hospital Administration) course.

The Online (CBT) Entrance Test will be conducted in one shift:

Timing 09 AM to 10.30 AM.

4.2 Selection of candidates for the MD (Hospital Administration) course is a two-step process, with a theory examination. The theory examination will consist of a paper with two parts (Part 1 – General, and Part 2 – Specialty), each with 40 marks. Part 1 will consist of 40 multiple choice questions of MBBS level, each with four options and a single most appropriate response. Part 2 of the paper will consist of 40 multiple choice questions related to Hospital Administration, each with five options and single/multiple correct response(s). Total duration of the theory examination is 90 minutes.

Each question correctly answered in Part 1 will be awarded one mark, with no negative marking for wrong answers. Incorrect responses will, however, be negatively marked in Part 2 of the paper. This part has 40 questions, each with five response options. Hence there are a total of 200 response options. One or more of these five options can be correct for each question. Part 2 of the paper therefore has some number of correct responses (say a) and incorrect responses (say b, such that a+b=200). A candidate would mark a proportion of these responses as being correct. Some of these are truly correct (say x) while the remaining are wrongly marked as being correct (say y). Candidates'

responses are matched to each of the 200 possible responses (marked as correct, or left blank) with the true answer (correct or incorrect). True correct responses (i.e. candidate correctly marks a response as true) are scored positively, and incorrect responses (i.e. candidate marks an incorrect response as correct) are scored negatively. Any responses not marked by the candidate are not scored. A candidate's score in Part 2 will be computed using the formula: $\text{Score} = [x/a - y/b] \times 40$. As an example, assume that Part 2 of the paper has 80 correct responses. If a candidate marks 90 responses as correct, out of which 60 are truly correct and the remaining 30 are incorrect, then $a = 80$, $b = 120$, $x = 60$ and $y = 30$. Accordingly, for this candidate, the score in Part 2 is $[(60/80) - (30/120)] \times 40 = 20.0$. Please note that these figures are only illustrative, and do not imply the actual number of correct responses in the question paper, or actual performance of any candidate. The marks obtained in Parts 1 and 2 will be added to obtain the total theory score, with a maximum score of 80 marks.

4.3 **METHOD OF RESOLVING TIES**

If two or more candidates obtain equal percentile scores, then inter-se merit for selection shall be determined on the following basis:

- (i) A candidate who has obtained higher aggregate marks in MBBS examination shall rank higher to a candidate who has obtained lower marks.
- (ii) If the aggregate marks obtained in MBBS examination are the same, then a candidate senior in age shall rank higher to a candidate who is junior in age.

4.4 **A merit list** will be prepared on the basis of the marks obtained by the candidates in this theory examination. Separate merit list will be prepared for each category. Candidates of various categories, who secure marks in the theory examination, as mentioned below, will be eligible for counselling. However, OBC / ST candidates are eligible to apply against general category seats, as there is no seat reserved for these category and also compete in general category candidates:-

Open (General) and Sponsored / Deputed : 35 marks
SC : 30 marks
